Max. Number of participants	max. 40 persons	
Funding opportunities	---	
DESCRIPTION OF THE ACTIVITY		
Ident number of the activity / UNIT	L6_U8-1	
Goals / field of competence	Continuing education specifically for the renovation of half-timbered houses.	
Training tasks	Description of detailed goals / content (fine goals). Learning outcomes according to PSA qualification portfolio: Due to the large number of building materials used (e.g. lime, clay, wood) and their different properties, the renovation of half-timbered houses is a particular challenge. The greatest enemy of the timber frame is moisture. The aim is to impart specialist knowledge: damage to half-timbered buildings, sustainable and durable renovation of half-timbered buildings, modernization options in existing buildings, inventory, moisture protection of the facade, material selection for coating and plaster, heat losses and energy saving in half-timbered houses. If half-timbered houses have to be renovated, special knowledge is required in the selection of materials and craftsmanship.	
	Knowledge	Correct selection of materials and communication of principles of building physics during renovation.
	Skills	Details of execution in the renovation of half-timbered houses.
	Responsibility and autonomy	Independent planning and implementation of a timber frame renovation.

DESCRIPTION OF THE ACTIVITY – <i>continuation</i>
